VAKI SMARTFLOW

HIGH LEVEL OF EFFICIENCY AND ACCURACY

Smartflow connects all Vaki Smart Pumps, Graders and Counters for full overview and control of the fish handling system.

With Smartflow all Vaki Smart devices can be controlled and fine-tuned to achieve high levels of efficiency and accuracy to maximise fish welfare while minimizing labour.

Enables higher quality and accuracy of farm operations

- Collects and stores valuable stock information
- Realtime evidence and validation
- Provides grading based on biomass or actual count
- Easy access to highly valuable information
- Logging for future reference and tracing
- Preventive maintenance scheduling based on duty cycle
- Easy to use and reduces stress of employees

“MY JOB IS MUCH MORE PLEASANT AFTER SMARTFLOW WAS INSTALLED. ARMED WITH MY TABLET COMPUTER AND THE SMARTFLOW DASHBOARD I NO LONGER HAVE TO BE ON THE FLOOR WATCHING THE EQUIPMENT WHEN WE ARE GRADING/COUNTING.”

INTERLINKED SMART PRODUCTS

SPEED PUMP ADJUSTMENT

AUTOMATIC FEEDBACK CONTROL

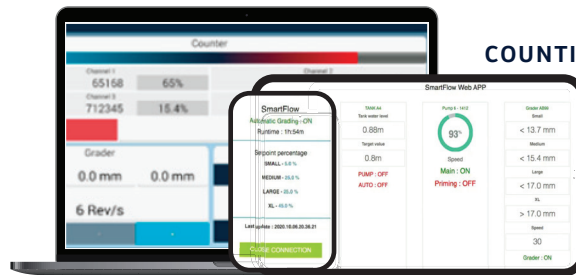

ONLINE DATABASE & LOCAL SERVER

VAKI CLOUD

COUNTING REPORT

CONTROL & MONITORING

Fully integrated feedback loop between grader and counter.

Settings of the grader can be adjusted to reach the optimal quantity of fish in each category.

LET'S ADVANCE
AQUATIC WELFARE
& SUSTAINABILITY
TOGETHER
